

TIV-060

PNEUMATIC TIMER

WORKMASTER
WE FIND A WAY — OR MAKE ONE!

The **TIV-060 Pneumatic Timer** is a uniquely rugged and simple design which features a high-flow poppet valve with spring return. It allows the User to set-up how much time will pass before the piston opens the chamber, allowing for precise timing without relying on electrical timing devices. When installed correctly and maintained properly, the TIV-060 will provide a wide range of operating alternatives. The TIV-060's Main Valve is integrally fitted with a 2-port, air actuated Pilot Valve that has an adjustable 0- to 60-second time delay. The **TIV-060 Pneumatic Timer** is ideal for use with timed impact piston vibrators, or single-acting cylinders.

Workmaster® line of Hopper Car Unloading Products

ranging from our wide selection of gate openers and railcar vibrators to our railcar pocket-to-undertrack conveyor connectors, offers total solutions to the vexing problems of unloading hopper cars.

WORKMASTER®

WE FIND A WAY — OR MAKE ONE!

WORKMASTER® is a manufacturer of labor savings bulk material handling tools to help safely and efficiently unload, transport, store and process bulk solids from hopper bottom railcars, bulk trailers, bins, silos and chutes. To help Customers gain maximum benefit from our bulk materials handling tools and equipment, we also supply a complete line of operating, mounting, and maintenance products and accessories, such as Timers and Motor Controls, Vibrator Mounts, and Lubricating Oils to help keep your unloading site tools running longer and more efficiently. WORKMASTER products help Customers work more safely and efficiently, increase the lifespan of production-critical equipment, and decrease operating and maintenance costs of tools and equipment used in some of Industry's most dangerous, difficult, and dirty jobs.
